## MONEY GROWS.

IF YOU were to plant \$1.00 or \$100 in the ground, it would not even sprout; it may be there when you come for it and it may not. If you deposit \$1.00 or \$100 in this bank on a Savings Account, it will earn you 4 per cent interest, and this compounded semi-annually means that \$100 in one year grows to \$104.04. That's better than letting it lie idle where some one may steal it or fire may destroy it. You should be saving for something—the HOME you mean to buy; the "RAINY DAY" that is sure to come; that TRIP you mean to take; or the EDUCATION of your children. One dollar will start an account here. Your money will be safe and IT GROWS.
